Anthony
Bryk**

Getting ideas into action: designing networked improvement communities

Professor Anthony Bryk (President of the Carnegie Foundation for the Advancement of Teaching) will be presenting the Design-Educational Engineering and Development (DEED) approach to school improvement. This powerful organisational process allows the whole system to address shared complex problems with all stakeholders, rapidly prototyping improvements and harnessing collective intelligence to facilitate organisational learning and sustainable improvement.

Speaker

Professor Anthony Bryk (President of the Carnegie Foundation for the Advancement of Teaching)

Chair

Dr. Ruth Deakin-Crick
(Graduate School of Education, University of Bristol)
