

How to find the Occupational Health Service

1-9 Old Park Hill, Bristol, BS2 8BB

How to find us

If you are approaching from Park Row, turn left up Lower Church Lane and follow the signs for the main entrance at the rear of the building.

If you are approaching from Woodland Road, turn left into Cantocks Close then right into Medical Avenue.

How to get here

The nearest bus stop can be found on Park Row and the nearest public car park is Trenchard Street. These are around 150 metres away and involve an uphill walk to our office, which may not be suitable for some people with disabilities.

There is no visitor parking available. If you need to request a parking space due to a disability, please contact us in advance with your registration number and we can advise you where you can park.

Please note that this cannot be guaranteed and if a space is provided, this won't be a disability accessible parking space so it may be more suitable to arrive by taxi.

Getting into the building

Enter 1-9 Old Park Hill through the main entrance situated on Medical Avenue, opposite the Chemistry car park.

Inside the building

After entering the building, you will see double doors and a visitors area.

- UCard holders can use the sensor beside the doors to open them.
- If you don't have a UCard, use the phone in the visitors area to contact us and we will open the double doors remotely.

Take the stairs to the first floor and turn left.

If you need to use the lift, you'll find it located behind the stairs. Take the lift to the first floor and exit right from the lift lobby.

Check in at the electronic kiosk on arrival, then wait in our private waiting area to be called for your appointment.
