

## Postgraduate Admissions Statement

# PhD Molecular, Genetic and Lifecourse Epidemiology (Wellcome Trust)

### Programmes Covered

This admissions statement applies to the following programme(s):

PhD Molecular, Genetic and Lifecourse Epidemiology

Applicants should also refer to the relevant prospectus entry for further programme details.

This admissions statement should be read in association with the [University Admissions Principles and Procedures for Postgraduate Taught Programmes](#).

### Faculty

Faculty of Health Sciences

Telephone: +44 117 928 7274

Website: [www.bristol.ac.uk/social-community-medicine/](http://www.bristol.ac.uk/social-community-medicine/)

### Admissions cycle

This Admissions Statement applies to applications submitted for entry to the programme between 1st October 2017 and 31st September 2018

### Application deadline

Details of application deadlines for this programme are displayed on the individual programme page within the [University course finder](#).

### Admissions criteria

#### Academic requirements

To be considered for admission to this programme, applicants are required to hold/achieve a minimum of a good honours (minimum requirement is a 2:1) or Master's degree in a relevant discipline. As this is a multi-disciplinary programme degrees may be in a range of science subjects, but the applicant should be able to demonstrate how they will apply this to molecular, genetic or lifecourse epidemiology in their research statement.

For information on international equivalent qualifications, please see our [International Office website](#).

### English language requirements for non-native English speakers

For applicants whose first language is not English, and whose full undergraduate degree was not taught in an English-speaking country, it is necessary to hold/achieve a minimum score in an approved English language test as specified in Profile B of the [University's English Language Requirements Policy](#).

Applicants do not need to have reached the required level of English language before applying. If necessary, English language will be included as a condition of offer.

Applicants have the option to undertake one of the University's Pre-sessional English courses. You can find information about the University of Bristol's Pre-Sessional English courses at the [Centre for English Language and Foundation Studies website](#).

### Additional requirements

There are no additional requirements for this programme.

## Application process

### Online application form

Applicants should complete the online application form, uploading all [required documents](#) directly into the application form. Guidance on uploading documents can be found in the [How to Apply FAQs](#). Any paper documents received by post, or electronic documents received by email, will not be considered except in exceptional circumstances.

Applicants should make every effort to choose the correct programme in the application form by reading the prospectus entry and admissions statements fully. Applicants should [contact the relevant Admissions Team](#) if clarification is required.

### Documents required

The required documents for this programme are listed below. Applications may not be considered until all required documents have been uploaded to the application form.

Applicants who have already submitted an application can upload additional documents into the 'Post-submission uploads' section of the application form. Information about how to upload documents to an application form can be found in our [How to Apply FAQs](#).

#### Required documents for this programme are:

- **A covering letter** stating clearly that you are applying for the Wellcome Trust four-year PhD programme in Molecular, Genetic and Lifecourse Epidemiology. The letter should include a personal statement (max. 250 words) regarding your career aspirations
- **Curriculum Vitae (CV):** CVs might include details of other relevant work experience and qualifications to support an application. Please do not include any school (pre-university) certificates, unless otherwise specified above.
- **Degree certificate(s)** from first and subsequent degrees. We require a Certified Copy of original documents and certified translations of documents issued in any language other than English.
- **Academic transcripts** from first and subsequent degrees. We require colour scans of original documents and certified translations of documents issued in any language other than English. Transcripts must list all subjects taken and grades achieved to date, with the grade scale clearly displayed in the transcript. Applicants must clearly state their current average grade in the online

application form.

- **Personal statement:** Personal statements should highlight the motivation for applying for the course, and any relevant experience and/or skills.
- **Research Statement:** Applications received without this will be returned to the applicant, with a request for this information it should be approximately 1200 words. The primary requirement for the research statement is to define and situate your research within an academic/disciplinary context. You should remember that people in the academic community are the primary audience/readership for postgraduate research. This means that you will need to identify:
  1. The research questions or problems that you intend to address;
  2. The research context for your project/programme of work;
  3. The methods you think you will use to pursue the key questions.
- **English language certificates** are required from applicants for whom English is not the native language and whose full undergraduate degree was not taught in an English-speaking country (please see the [English Language Requirements](#) for a list of English-speaking countries)
- **Two academic references (minimum):** References should be submitted electronically by the referee, using the online reference form. Alternatively, scanned copies of the original reference document(s) can be uploaded by the applicant. At least one referee should be familiar with the applicant's academic work. If you graduated more than two years ago, or if professional experience is relevant to the application, professional references will be accepted in lieu of one academic reference. References must be written, signed and dated on official letter headed paper from the referee's organisation. They must include the referee's full contact details, i.e. postal address, telephone number and organisation email address. References supplied with a personal contact email address will not be accepted unless under exceptional circumstances, which must be explained within the reference. All references must be dated within the last two years.
- **Copy of your current passport.**

#### Optional documents for this programme are:

- **Additional References:** Applicants are welcome to upload additional references to further support an application. Professional references from work experience in a related field and/or industrial placements can help an application.
- **Research Training Statement:** A Research Training Statement is not required, but applicants are welcome to provide details of any training requirements to support their postgraduate studies. If there are no training requirements this section can be left blank.

### Correspondence with applicants

Applicants will normally receive communication via email to the email address used to set up the application form account. Applicants should ensure the profile email address is kept up-to-date.

### Selection process

#### Assessment of applications

All applications are considered in accordance with the [University's policy on equality and diversity](#). The University of Bristol upholds the principles of equality and diversity, respect and dignity. Candidates are not discriminated against on the grounds of race, ethnicity, nationality, gender, sexuality, religion or belief, disability, health or age.

Once a complete application has been submitted with all required supporting documents, it is considered by a selection panel (including programme directors) following the closing date. We receive a high volume of good

quality applications for a small number of places, and therefore typically shortlist applications for interview based on qualifications, research and personal statements.

Shortlisted applicants will be invited for interview or declined. We aim to reach this decision within 3-4 weeks of the initial shortlisting.

## Interviews

Interviews are used to select candidates for this programme.

Interviews comprise a five-minute presentation from applicants on their proposed project, followed by project-specific and generic questions from the panel.

The purpose of the interview is to assess whether the applicant has the necessary skills and capabilities to pursue the chosen postgraduate programme, and whether the programme is appropriate to the applicant's interests and aspirations.

If required, interviewees based overseas will be interviewed by telephone or Skype.

All interviews are conducted by at least two and up to four members of staff, at least one of whom is trained in fair and effective recruitment techniques. All interviews are undertaken in accordance with the University's policy on equal opportunities.

## Non-standard applications

We welcome applications from those with non-standard qualifications who can demonstrate knowledge, experience and skills developed in the workplace, or elsewhere, relevant to the programme of study. Please use your personal statement to provide further details.

Non-standard applications will be considered by the Admissions Tutor(s) for the programme on a case by case basis.

## Decisions

### Notification of decisions

Applicants will be notified by email when a decision has been made and decision letters will be available to view and print by logging into the application. If there is a deadline by which applicants must accept an offer of admission, this will be stated in the offer letter.

### Offers

Offers made may be conditional or unconditional. An unconditional offer will be made to successful applicants who have already met the conditions and provided evidence that conditions have been met. Where academic or language requirements have not yet been fulfilled, successful applicants will receive a conditional offer outlining the requirements that must be met.

If an applicant is not selected to receive an offer for the course to which they have originally applied, we may offer the opportunity to be considered for an alternative programme in a related subject area. In such cases applicants will receive an email notification providing any alternative course options and asking whether they wish to be considered for these. It may be necessary for applicants to submit additional documentation in order for the application to be fully considered for an alternative programme. Details of the documentation required can be found in the [admissions statement](#) for the relevant programme.

### Deferrals

This programme does not normally allow deferrals unless there are exceptional circumstances, and any deferral would be subject to agreement of the funder. Please contact the admissions team by emailing [scm-postgrad-admin@bristol.ac.uk](mailto:scm-postgrad-admin@bristol.ac.uk) if you would like to discuss the possibility of deferring your start date.

## **Additional information**

### **Extenuating Circumstances**

If your education has been significantly disrupted through health or personal problems, disability or specific difficulties within your studies you can submit an [extenuating circumstances](#) form as part of your application.

The information provided on the form will be treated confidentially, and will help us to fairly assess your academic performance in light of your circumstances.

### **ATAS**

An ATAS certificate is not required.

### **Deposits**

There is no deposit required for this programme.

### **Visa**

International students coming to the UK to study full-time must apply for a student visa. [Tier 4 student visa guidance notes](#) are available on the University website.
