

<b>PI</b>	<b>Title</b>	<b>Date Requested</b>	<b>Amount</b>
Dr Lucia Primavesi	Updating and streamlining DNA electrophoresis equipment in Plant Sciences	October 2018	£1,881
Professor Innes Cuthill	The role of gloss in plant-pollinator signalling	October 2018	£18,224
Dr Sally Hobson	Replacement 40 x objective for confocal microscope	October 2018	£5,398.80
Dr Lucia Primavesi	Provision of specialist training to support and enhance the use of Wolfson Photosynthesis Suite	October 2018	£1,100
Dr Imogen Sparkes	Plant organellar 'roadmap' tool	October 2018	£66,434
Dr Jill Harrison	Fundamental requirements for branching in plants	October 2018	£46,248
Dr Heather Whitney	Bee Friendly Photonics	June 2018	£44,913
Professor Kerry Franklin	Controlling plant architecture in canopy shade	June 2018	£14,212
Dr Antony Dodd	Manipulating of chloroplast transcriptions to enhance horticulture	June 2018	£46,633
Professor Keith Edwards	Understanding & archiving the genetic diversity of long Ashton research station cider apples	June 2018	£11,338
Dr Tom Oliver	Understanding the Influence of Carbon Nanoparticles in Enhancing Crop Yield	June 2018	£25,559

Miss Dora Cano-Ramirez	Signal transduction and circadian regulation under natural conditions	April 2018	£2,500
Professor Nicholas Roberts, Dr Lauren Sumner-Rooney	Lights Out: How anthropogenic light pollution affects the migration of crop pests	April 2018	£38,932.41
Helen Harper / Fiona Belbin	Part funding of an undergraduate summer studentship in collaboration with LettUs Grow Ltd	May 2018	£1,450
Dr Andy Bailey	Upgrade to LCMS facilities to support discovery of novel crop protection agents	February 2018	£19,040
Dr Jon Bridle	Roots and shoots: Genetic variation & plasticity in root investment and its consequences for shoot growth along an elevational and soil type gradient	February 2018	£14,500
Professor Jane Memmott	Ecosystem service provision in upland farming systems	February 2018	£9,860
Dr Anthony Dodd, Professor Gary Foster, Professor Keith Edwards	Bristol Plant Sciences Facilitator - Funding renewal	February 2018	£57,025
Christos Ioannou	Automated monitoring of fish from video in aquaculture systems	February 2018	£10,011.85
