

## Acknowledging Elizabeth Blackwell Institute

This document gives information for researchers on how to reference and acknowledge Elizabeth Blackwell Institute when communicating research supported and/or funded by the Institute.

### ACKNOWLEDGEMENTS

- If the funding for your work comes from the **Wellcome Trust ISSF** you must acknowledge it in your communications. Preferred wording is as follows:

'This work is/was supported by the Elizabeth Blackwell Institute, University of Bristol and the Wellcome Trust Institutional Strategic Support Fund.' The WT ISSF3 grant number is 204813/Z/16/Z.

The wording for all submissions of original research to peer-reviewed journals:

'This research was supported by the Elizabeth Blackwell Institute, University of Bristol and funded in whole, or in part, by the Wellcome Trust [*Grant number*]. For the purpose of Open Access, the author has applied a CC BY public copyright licence to any Author Accepted Manuscript version arising from this submission.'

- If your work was supported by the Elizabeth Blackwell Institute with funding from **other funders**, please use the following wording:

'This work is/was supported by the Elizabeth Blackwell Institute, University of Bristol and the [add name of the funder from your award letter].'

Please use 'Elizabeth Blackwell Institute' in full. We are avoiding using the abbreviated 'EBI' for anything other than very 'internal' use (i.e. within the University of Bristol, for internal emails).

### RESOURCES FOR PRESENTATIONS AND REPORTS

[PowerPoint](#) – branded template slides for presentations – please use where possible.

[Document template](#) – for reports or agendas etc. - please use where relevant (only works if you open in desktop Word app).

[Logo](#) – see example on the right, please use wherever possible.

Elizabeth Blackwell Institute  
for Health Research

**NOTE:** Please do not copy/use our brand graphics (e.g. in the banner of this document) in place of our logo – these designs are only available for use in the templates and resources we provide.

### FURTHER MESSAGING

To be used by you and your communications leads in media releases, website copy, or any other communications where a more detailed explanation of our work is needed.

#### **Elizabeth Blackwell Institute**

Nurturing research. Improving health.

The Elizabeth Blackwell Institute drives innovation in research to improve health for all. It nurtures interdisciplinary research to address the complex health challenges facing us today.

The institute focuses on:

- Supporting the next generation of health researchers
- Connecting people to develop interdisciplinary research
- Including everyone in research so the research can benefit all.

**CONTACT** If you need further support, please email: [ebih-admin@bristol.ac.uk](mailto:ebih-admin@bristol.ac.uk)
