## Global Public Health Research Strand, EBI

University of  
**BRISTOL**  
Elizabeth Blackwell Institute  
for Health Research

*Focus[ing] on public health issues that have global significance or spread and that need research contributions from a range of disciplines to be tackled effectively. We will prioritise research where there is potential for learning and knowledge exchange beyond single national settings and/or for building sustainable research partnerships across UoB Departments, Faculties, Institutes and Centres and with institutions in low and middle-income countries.*

*The strand will cultivate and strengthen interdisciplinary global health collaborations across UoB more widely and strategically, creating a sustainable research presence and developing readiness for future global public health funding calls.*

## Global Public Health Research Strand, EBI

### Focusing on public health issues of global significance through interdisciplinary research

#### Strand priority areas:

- Consequences of COVID-19 and pandemic recovery
- Mental health
- Multimorbidity (co-existing health conditions)
- Prevention of infection
- Women's and young people's reproductive and sexual health

[bristol.ac.uk/blackwell](http://bristol.ac.uk/blackwell)    [@EBIBristol](https://twitter.com/EBIBristol)

## Funded and supported by the GPH Strand

- Estimating the impact of COVID-19 on HIV transmission and control among men who have sex with men in China (Dr Ross Booton)
- Estimating the vulnerability of African girls and their families to COVID-19 infections (Prof David Gordon)
- Staying active at home: the impact of COVID-19 movement restrictions on physical activity in a low-income semi-rural population (Dr Laura Johnson)
- Epidemiology and transmission of COVID-19 in cases and close contacts in Georgia (Dr Josephine Walker)
- Identifying routes to improve the sexual and reproductive health of the women of Malta in Northeast Brazil (Dr Egle Cesnulyte)
- Development and implementation of the first e-Veterinary *Vade Mecum* in Argentina (Dr Cristina Ballesteros)
- Stroke and neurology in Somaliland (Dr Kanch Sharma) (workshop)
- *NB we have funding for one further year of activity: look out for our future funding calls!*

## Question for breakout groups

*What additional expertise, partnerships or resources do you need to progress your research ideas and interests in global public health?*
