

Cabot Institute/CREDIBLE summer school Risk and uncertainty in natural hazards

Monday 15 July – Friday 19 July 2013

Join us for our popular summer school on risk and uncertainty in natural hazards looking at:

- Forward propagation of uncertainty with Dr Tamsin Edwards
- Sensitivity analysis with Professor Thorsten Wagener
- Expert elicitation with Professor Willy Aspinall
- Plus special guest lectures from Professor Steve Sparks FRS, Dr Jonty Rougier and Ken Mylne (Met Office) amongst others.

This summer school is being held in conjunction with the Cabot Institute, the University of Bristol's environmental research institute and CREDIBLE, a NERC funded project which aims to better assess uncertainty and risk of natural hazards.

Venue: Engineers House, The Promenade, Clifton Down, Bristol, BS8 3NB

£300 students, £500 non-students. Booking is required online at
