

Meeting of the RSS Avon Local Group

**Group Sequential and Adaptive Methods for Clinical Trials:
Short Course and Seminar**

25 May 2012, 13:15-17:15

University of Bath

Short course by Professor Christopher Jennison, University of Bath

Group sequential tests

- * Underpinning theory and computation
- * Error spending tests
- * Example: sequential monitoring of survival data

Adaptive designs

- * The combination test
- * Testing multiple hypotheses
- * Sample size modification
- * Enrichment trial designs
- * Seamless Phase 2/Phase 3 designs

The course will be followed by a **seminar** on “Recent advances in phase II/III clinical trials: Study Design and Methods of Analysis” by Professor Sue Todd (University of Reading).

The meeting will take place in room 6E 2.1, University of Bath (see <http://www.bath.ac.uk/maps/> for a map).

The meeting is open to all and free of charge. For more information please contact: E.Evangelou@maths.bath.ac.uk
