

PLN stories: Projects

Daniel Poursaeedi

Centrepont

Eliz has been fantastic in her internship here at Centrepont. She immediately had a positive impact and helped meet our internal deadlines and even surpass our own set goals.

Her can-do attitude, fast-learning, and very organised nature has shined and it has been a great asset to our work on the Databank and also the wider team more generally. She has been quick in absorbing new Excel data handling skills and has shown that she is a capable and intuitive researcher who can see meaning behind the data and hypothesise possible explanations.

I also would like to say thank you to the University of Bristol and the PLN in particular for their helpful and attentive assistance with this internship and making the process smooth and aligned to our goals with this internship and the Databank project.

I definitely would recommend this to someone considering an internship with University of Bristol.

“She immediately had a positive impact and helped meet our internal deadlines and even surpass our own set goals.”
