1. Introduction

Agents and agencies use the Agent Portal to create, submit and manage postgraduate applications to the University of Bristol on behalf of international applicants.

You can manage your applications from one place and each member of staff has their own account and login details. Agency managers have the added ability to create and manage staff accounts.

Use this guidance for reference only while development continues on the Agent Portal. Functionality might change as we receive feedback and further development takes place, so always follow instructions on your screen.

If you have any issues with the agent portal or require further information contact international-office@bristol.ac.uk

2. Login

To sign in to the portal use this link: [University of Bristol Agent Portal](#).

Login details will be sent via email. If you have not received these, contact your agency manager in the first instance to check they have created your account and have entered the correct details. If everything is correct, contact international-office@bristol.ac.uk.

When logging in for the first time, use the information provided in the email. You will be directed to reset your password, after you have changed your password you will be directed to the Agent Portal.

2.1 Forgotten password

Click **Reset your agent password** on the login page. Enter your **username**, **surname** and **date of birth** and you will receive an email to reset your password.
