

Consent Information

Please confirm your consent to participation in this research project by reading and agreeing to the following statements:

1. I confirm that I have read the participant information sheet (<http://www.bristol.ac.uk/population-health-sciences/centres/ethics/research/reasonable-adjustments-for-autistic-clinicians-raac/>) and I have had all the information that I need to make a decision about whether or not to take part in this survey.
2. I consent to the processing of the answers I have given for research purposes, including answers that I give regarding sensitive topics that fall under GDPR special category data status; e.g., my health and disability(s), my racial or ethnic origin, my sexual orientation.
3. I understand that my responses are completely anonymous, and that once I have submitted my responses it will not be possible for me to withdraw from this study as there is no way to identify my responses.
4. I understand that the data I provide may be seen and used by researchers directly working on this study, and that they may use it for future related projects. The data I provide will not be made available to other researchers outside the University of Bristol.
5. I understand that summary data and anonymised quotations will be included in publications and presentations arising from this study, but that it will not be possible to identify me from these excerpts.

By submitting responses to this survey, you are agreeing to the above.
