

## Staff Interview Consent Form

Study number:

### Access to medical test results service in General Practice

I volunteer to take part in a research study conducted by Dr Gemma Lasseter from the University of Bristol. I understand that this study is designed to gather information about access to medical test result services in general practice. I will be one of approximately 20 patients being interviewed for this research.

Please read the following information carefully and **initial the boxes** if you agree with the statements provided:

	Please initial relevant boxes
I confirm that I have read and understood the Participant Information Leaflet (dated 2018.12.03 v3) for the above study. I have had an opportunity to consider the information provided, ask questions and have had these answered satisfactorily.	
I understand that my participation is voluntary and that I am free to withdraw up at any point, without giving a reason, without my medical care or legal rights being affected. However, any data collected up to this point may be retained.	
I understand that the information collected about me may be used to support other research in the future and may be shared anonymously with other researchers.	
I agree to this interview being audio recorded and for publication of anonymised quotes.	
I consent to some personal and sensitive information (for example, sex, age group, ethnicity and so on) being collected about me for the purposes of this study only, although I understand that I am under no obligation to answer any/all of these questions	
I understand that all data will be stored securely and is covered by the Data Protection Act 2018.	
I give consent to take part in an interview for the above study.	
I have been given a copy of this consent form.
