Year 5 Teaching workshop

9.11.2012

Engineers' House, Clifton, Bristol

Don't miss this workshop if you are an experienced or new Year 5 GP teacher. We have invited 3 speakers.

Prof. Karen Forbes is the Unit lead for the Year 5 Preparing for Professional Practice (PPP) course and a consultant in palliative care. She will outline what students are learning on the PPP course when they are not in General Practice.

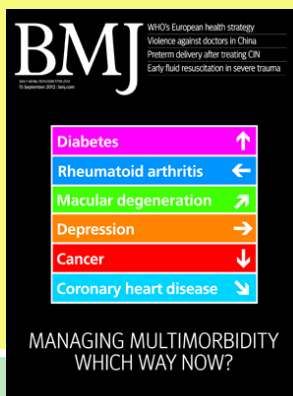

Prof. Chris Salisbury has published on the very topical theme of multimorbidity and will share his thoughts. As a GP in a deprived area in South Bristol he has first hand experience of managing multimorbidity.

Dr. Bob Baker is the prescribing lead and will tell us about the new national prescribing exam, and what is happening at Bristol about teaching prescribing.

There will also be a Year 5 update and a teaching top tips session. We think that this programme will tick the GP CPD box as well as give you a practical handle on teaching these topics.

You are also welcome to attend if you haven't decided yet whether you want to give Year 5 teaching a try. Hopefully we can inspire you. For more information and to book your place email

phc-teaching@bristol.ac.uk

Feedback tips

Learners expect feedback but also ignore it. If they receive good feedback, 'smile and file'. If they receive bad feedback, 'bin and forget'. To help learners work with their feedback ask them to start a reflection with

- 'The part of the feedback that puzzles me the most...'
- 'The comment that rang the truest for me was...'
- 'I don't get what you mean when you say...'
- 'I would welcome some advice on...'

Don't miss these courses!

These generic teaching courses are great for complementing the year specific teaching workshops organised by us in Primary Care.

Fit2Teach programme

If you are teaching medical students on behalf of Bristol University you are entitled to attend the Fit2Teach workshops organised by the **TLHP** (Teaching and Learning for Health Professionals). Please take a look at their **fantastic free programme** for 2012-13. The workshops are held in all the academies, so no need to travel to Bristol. It is also a great opportunity to meet the people who teach on the TLHP masters course. Find out more at <http://www.bris.ac.uk/medical-education/tlhp/courses/fit2teach/>

Dates for your diary

Year 2&3 workshop: April 2013

Year 4 Workshop: 19.2.13

Summer workshop: 18.6.13

Student SSCs

If any students ask you to supervise their SSC in the coming academic year, please let the [Teaching Office](#) know, otherwise payment may not be possible or could be very delayed.

Ideally enhance learners 'want' to learn
