

ARRANGEMENTS FOR STUDENTS WHO WILL BE UNDER THE AGE OF 18 ON ENTRY

Or for applicants who will be under 18 when applying for a Student visa

The University of Bristol has put in place a range of measures to ensure that our staff are aware of and comply with all the relevant legislation relating to students who are under the age of 18. For example, we will ensure that students under the age of 18 are allocated an experienced personal tutor within the relevant academic department and that appropriate arrangements are in place in respect of any field trips or other potentially hazardous activities associated with the course.

For applicants who will require a Student visa to study in the UK, this form must also be completed where the applicant will be under the age of 18 at the point that they submit their Student visa application, even if they will be over 18 on entry to the University.

We ask parents/guardians to confirm that they recognise their particular responsibilities for their children while they are under the age of 18. You can also be assured that the University intends to comply with all legal requirements.

Applicants who will be under 18 on entry to the University will not be able to register as a student at the University without providing a completed form.

We require details of an Emergency Contact who is resident in the UK, and the signature of the parent/guardian(s) to confirm these details. The parent/guardian(s) signature is required even if they are not the listed Emergency Contact. Failure to provide the name and address of a UK resident who the University can contact in case of emergency will mean that we cannot register you as a student for study.

Completed forms must be uploaded to the applicant portal for processing by the Admissions Team.

2. Parental Consent in support of Student visa application

All students who will be under the age of 18 at the point that they submit their Student visa application must provide a written consent letter from their parent(s) or legal guardian(s) within the supporting documents required for their visa application. This letter must confirm all of the following:

- their relationship to you

- that you consent to their living arrangements in the UK

If one parent (or legal guardian) has legal custody or sole responsibility, the letter must confirm this and be signed by that parent (or legal guardian). If not, then both parents (or legal guardians) must give their consent and the letter must be signed by both parents (or legal guardians).

Further information about this is provided on [UK Council for International Student Affairs \(UKCISA\) website](#).

My child will be under the age of 18 on arrivals weekend at the University and I have provided details of an appropriate emergency contact below.

The University has an Emergency Contact Procedure which we use when we have serious wellbeing concerns about a student. If the University contacts the nominated Emergency Contact it is our expectation that action will be taken to provide additional support to the student. We recognise that under 18-year-olds may need more support than adult learners and that is why a UK based emergency contact is important.

It may be necessary for the person acting as an emergency contact or guardian to meet with the student, or to collect them from the University and take them somewhere safe, suitable and supportive. For example, a student may be admitted to hospital and need a safe place to recover; we may feel that a student is not able to live independently or safely due a temporary situation, or they are required to leave their current accommodation or the University.

It is important that any nominated emergency contact, including guardianship organisations, understand this commitment and agrees to provide this level of support if necessary.

Please provide details of an Emergency Contact in the UK for the period until the student is 18 year old. This contact can be:

- A UK-based parent/ legal guardian
- A UK-based friend of family member.
- A guardianship organisation with gold-standard accreditation from AEGIS (aegisuk.net)
